T62.7: 942

Treasury Department, Office of the Secretary, Division of Research and Statistics.

# PRICES AND YIELDS OF PUBLIC MARKETABLE SECURITIES ISSUED BY THE UNITED STATES GOVERNMENT AND BY FEDERAL AGENCIES

#### **JANUARY 1942**

All prices shown in this statement are closing bid and ask quotations in the over-the-counter market as compiled by the Federal Reserve Bank of New York. Quotations for Treasury bills are on a bank-discount basis; quotations for Federal Intermediate Credit Bank debentures are on a yield basis; quotations for all other issues are on a price basis per hundred dollars of principal amount (excluding accrued interest) with price decimals representing thirty-seconds. Quotations for securities traded on a "when issued" basis (except Federal Intermediate Credit Bank debentures) are shown beginning with the first day such trading is authorized. Yields are computed on the mean of bid and ask, except that, when the mean results in a fraction of a thirty-second, it is raised or lowered to the nearest even thirty-second. In the case of securities for which there is no ask price, yields are based on the bid price only. Yields are computed to delivery date on the basis of either a 360-day or a 365-day year, depending upon market practice with respect to each issue, and represent normal annual rates compounded semiannually. When the price of a bond, note, or debenture is such as to result in a negative yield, the excess of price over zero yield is given in the yield column. Zero yields are indicated 0.00 if rounded from a positive yield less than 0.005 percent, and ½2 if rounded from an excess of price over zero yield less than ½4. Whenever a negative discount arises on Treasury bills, a price is customarily quoted instead of a rate of discount; in this statement, a negative discount is indicated in the bid and ask columns by quoting the excess of price over a zero discount, while in the mean column it is indicated by the abbreviation neg. Average yield or discount is not shown when both positives and negatives occur within the month. Average ask price is shown only when there is an ask with every bid quotation.

The status of the various securities with respect to the treatment of interest under Federal income taxes is indica

<sup>8</sup> Series A is callable on 30 days' notice at 100½ on May or Nov. 16, 1942. Series B is callable on 30 days' notice at 101 on July 3, 1942; at 100½ on Jan. or July 3, 1943.
"Yield to call" is computed to that call date which gives the lowest yield, and is shown in this table only when it is lower than the "Yield to maturity."
